Listing of Claims:

1 – 10. (Cancelled)

11. (Currently Amended) A ball pin system comprising:
a first ball; and
a first pin integrally formed in said first ball;
a second ball having a second pin integrally formed in said second ball and
mounted into a first recess of said first pin;
said first ball and said second ball having a first ball cup and a second ball cup,
respectively, mounted thereon, said first and second ball cups being pivotable or
rotatable with respect to said first and second balls, respectively;
said first ball comprising a said first recess situated generally opposite said first
pin, said first recess having a recess dimension and said first pin having a pin
dimension, said pin dimension being at least as large as the recess dimension.

12. (Currently Amended) The ball pin system as recited in claim 11, wherein
said ~~second~~first pin is knurled and press-fit into said first recess.

13. (Previously Presented) The ball pin system as recited in claim 11, wherein
said first recess comprises a depth that is approximately three quarters the length of
said first ball.

14. (Cancelled)

15. (Currently Amended) The ball pin system as recited in claim 4411, wherein said second ball comprises a second recess situated generally opposite said second pin; said first and second balls and said first and second recesses being generally co-axial when said second ball is mounted onto said first ball.

16. (Currently Amended) The ball pin system as recited in claim 11, wherein ~~said first ball comprises a first ball cup~~ is molded thereto onto said first ball.

17. (Cancelled)

18. (Currently Amended) The ball pin system as recited in claim 4411, wherein said second ball ~~comprises a ball cup, said ball cup comprising~~ comprises a stop that is received in said second recess to facilitate limiting a rotation of a rod coupled to said second ball cup.

19. (Currently Amended) The ball pin system as recited in claim 4411, wherein said first ball comprises a first diameter and said second ball comprises a second diameter, said first and second diameters being the same.

20. (Currently Amended) The ball pin system as recited in claim 4411, wherein said first ball comprises a first diameter and said second ball comprises a second diameter, said first and second diameters being different.

21. (Previously Presented) The ball pin system as recited in claim 20, wherein said second diameter is smaller than said first diameter.

22. (Currently Amended) The ball pin system as recited in claim 4411, wherein ~~said ball pin system comprises a second ball comprising a second ball pin having a second pin dimension~~ second pin has a second pin dimension, said second pin dimension being substantially the same as the recess dimension so that said second pin may be press fit into said first recess.
